School Development Planning

Introduction

Alberta Education requires each school to create a plan to improve student learning. The School Development Plan (SDP) aligns individual school goals with the identified goals in CBE Education Plan | 2024 - 2027. Each year, schools capture evidence of continuous improvement towards the goals set. In accordance with Alberta Education's Requirements for School Authority Planning and Results Reporting, schools then provide assurance to school communities by communicating student growth and achievement in a school annual results report. This report demonstrates improvement results and next steps and support continuous improvement of the quality and effectiveness of education programs provided to students while also improving student learning and achievement (Funding Manual for School Authorities 2025-26 School Year p. 213).

The School Development Plan is based on results data relative to the goals and outcomes set in the 2024-25 School Development Plan for Year One and the school's Alberta Education Assurance Survey results. A summary of the results can be found in the Data Story section of this report. It includes:

- Celebrations
- Areas for Growth
- Identified Next Steps

For detailed results from the 2024-25 School year, please refer to the 2024-25 School Improvement Results Report on our school website.

2024-25 SDP GOAL ONE: Student success in mental health literacy will improve.

Outcome one: Through whole school, classroom-based and personalized routines and strategies for self-regulation and executive functioning, students will improve in mental health literacy, understanding of themselves as learners, and in academic success.

Celebrations

- Alternative High School continues to provide a Welcoming, Caring, Respectful and Safe Learning Environment according to 93% of students. 88% of students feel like they belong, 84% feel safe and 94% feel welcome.
- More students successfully completed core courses, including achieving acceptable on the diploma exams.
- Students at Alternative High School report that they receive a high quality of education (88%) and that they receive the supports they need to achieve success (93%).
- 88% of Alternative High School students believe that the skills they are developing in reading, writing and mathematics will help them achieve their future goals.
- 3 year high school completion doubled from 28% of students to 58% of students.

Areas for Growth

- Students need to build more confidence and independence in their self-regulation and executive functioning skills.
- Fewer students achieved excellence on diploma exams
- 20% of Alternative High School students missed school more than 50% of the time. Overwhelmingly, these are the students who do not complete courses successfully.

Next Steps

- Continued focus on building relationships and creating conditions where students feel safe and can regulate well-enough to access their learning in a meaningful way.
- Staff will deepen their understanding of student complexities and incorporate task design and assessment strategies that specifically align with student needs.
- Staff will create more opportunities for students to take ownership in identifying and solving their own challenges, and to be more confident in their own ability to manage their learning.
- Use Completion Day data to inform Engagement Improvement and Attendance Improvement plans to support students in overcoming barriers to regular attendance and engagement.
